Are you curious about how to create or deepen your relationships in recovery, but not sure how to navigate that in our program? Are you interested in deepening your recovery, and know that having strong accountability, support and friendship will help you as you do this work? Are you looking for ways to get into the Inquiries work outlined in the Recovery Dharma book, but don't know where to begin?

Presented by the Wise Friendship Committee of Recovery Dharma Portland Region, this dynamic workshop is designed to support Recovery Dharma members and all who are interested in exploring new models to support recovery in our community. We'll collectively explore what Wise Friendship means to our sangha members, and discuss how to put this Buddhist-inspired recovery support system into play in our region and our local meetings.

This workshop will include open discussion, panel presentation as well as small group discussions. Please note that this is not a meditation-focused event.

Walk-ins welcome. No reservation required to attend!

Suggested donation: \$5-\$25, Cash or Card at Event

No one will be turned away due to lack of funds.
