

# RECOVERY DHARMA PDX

## Summit Scholarship (and Group Rate) Takeaways

Great	Not Great
Collab with global saved us & community a lot of money	Collab with global came at the last minute, was confusing and poorly communicated
Collab with global made the scholarship logistics workable for applicants	Prepay & be reimbursed did not work for scholarship applicants
Community members stepped up to produce and publish application	Lack of volunteers created a last minute mad dash to get things done. It was stressful for those involved and we didn't have enough time to communicate with the community

### Recommendations If We Do This Again:

- We need a committee to handle the logistical aspects of collaborating with global, developing a plan, and producing the application
- We need to start working on these things MONTHS in advance so that they are in place and ready to rollout in early June
- No committee, no program 😞
